

# PROMOTIONAL SERIES KIT

## Model #94500

## Performance Specifications:

- 250psi
- .38gpm
- 15 nozzles / 40' patio coverage
- Quiet operation
- Solenoid valve controlled
- 110V
- Isolation feet
- 1/4" fittings & tubing
- Slip-lok design

**The Medium Pressure Pump** utilizes a brass rotary pump design and sealed bearings eliminating the need for oil lubrication and requires no maintenance. The Medium Pressure Pump produces up to 250 PSI while providing 1.1 gallons per minute. It is designed for light duty residential applications where price is the primary consideration.
